Metric No. 2.3.3.

The ratio of mentors to students for the latest completed academic year and stress-related issues.

Certificate from the Principal

It is to certify that the college has introduced the mentor-mentee system since its inception. The survival stage in remote and rural areas is more important than the others. Without a mentor-mentee system, the remote and rural area college could not survive. Twenty-eight faculty members have been on the college roll during the latest completed academic year. The Principal, Librarian, and Director of Physical Education are excluded from the mentorship work. The remaining 27 faculty members were done with the mentor-mentee job. The faculty members have been appointed on a full-time basis. They have not completed specific provisions to confirm their services in the college; therefore, their Appointment is temporary, but they have full-time work. As per the NAAC, Appendix 1: Glossary & Notes, full-time means "A teacher employed for at least 90 percent of the normal or statutory number of hours of work for full-time teachers over a complete academic year is classified as a full-time teacher." The NAAC, Appendix 1: Glossary & Notes explains well the meaning of a full-time teacher. DVV Input is only full-time teachers can be considered as mentors. We have appointed the faculty members full-time; therefore, we thought of 27 instead of 14 teachers.

Report on the issues raised and resolved in the mentor-mentee system.

Mentor-mentee system has been practiced right from the inception of the college, and it is one of the most effective systems functioning in the college, and it bridges the gap between the students and faculty members. The college has prepared a policy, and accordingly, the mentors perform their allotted work.

The mentor-mentee system objectives:

To establish a close rapport with the students.

To cater to the individual needs of the students.

To instill confidence among the students.

To guide the academic and personal issues.

To pay more attention to slow learners.

To inspire and motivate advanced learners towards innovation and creativity in action.

To provide an opportunity to express their opinions freely and discuss matters of relevance.

To resolve the issues/ problems during their adolescence and provide timely counselling.

To guide the students regarding the various resources available within the college and other colleges.

As per the policy of the system college expectations from the mentors are as follows.

To maintain a complete record of the students regarding their attendance, examination assignment, field visits, and project work records.

To inform them about the discipline, admission, scholarships, examination, and college protocols.

To record the students' progress in the examination, sports events, cultural activities, and extension activities and share it with their parents during the parent-teacher meet.

To organize frequent informal meetings about the issues that arise from time to time.

To record major and minor issues and timely action to resolve the problems with the Principal.

To assist the students in taking up remedial coaching, participate in competitive examination coaching, soft skill program, and the NSS camp.

Remark:

The college has introduced a well-structured mechanism for effectively implementing the mentor-mentee system. The college has previously defined the Objectives of the system and expectations from the mentors. Therefore, no significant and minor issues/ problems were encountered in the college. The college resolves the issues immediately with the help of the discipline committee and mentor committees. The college does not maintain student-wise grievance and their solutions mentor-wise.

Academic year 2020 -21

Mentor mentee Report

Under the Mentor Mentee Master-Disciple Scheme in the academic year 2020-21, 46 students in the Second year of B.A. were recruited by the Sociology Department. Due to the global corona epidemic, Mentor Mentee students took online classes through the Zoom app and WhatsApp. An online meeting was organized on 06-11-2020 & 16-02-2021. Students were introduced to the curriculum through online learning. Online notes were provided. The following students participated in it.
